

# Vocalizer 7 language and voice availability.

53 languages and 120 voices.

**Vocalizer 7** is a text-to-speech solution for use with IVR and mobile self-service applications. It is a next generation solution that enriches the user experience with enhanced expressivity and delivers an experience that is as natural as human speech.

Nuance has built an extensive offering of voices, designed to provide a superior caller and mobile experience. The standard library currently offers 53 languages/dialects and 120 voices, 20 of which are multi-lingual.

**About Nuance Communications, Inc.**

Nuance Enterprise is reinventing the relationship between enterprises and consumers through customer engagement solutions powered by artificial intelligence. We aim to be the market leading provider of intelligent self- and assisted-service solutions delivered to large enterprises around the world. These solutions are differentiated by speech, voice biometrics, virtual assistant, web chat and cognitive technologies; enabling cross-channel customer service for IVR, mobile and web, Inbound and Outbound; and magnified by the design and development skill of a global professional services team. We serve Fortune 2500 companies across the globe with a mix of direct and channel partner selling models.
