

The power of connection

Harness the power of AI through the Nuance Precision Imaging Network (PIN)

Nuance PowerShare—the industry’s fastest growing and highest value network—offers convenient, cost-effective and secure sharing of medical images and reports. It also offers single-point access to third-party AI services through the **Nuance Precision Imaging Network (PIN)**.

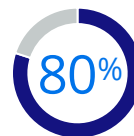

PIN delivers more comprehensive imaging assessments into the radiologist workflow. Healthcare specialists use quantitative and qualitative analysis from third-party AI algorithms to help provide better patient care through earlier diagnoses and more informed treatment and planning.

PIN facilitates streamlined access to a library of third-party AI services for a range of imaging modalities and specialty areas, including:

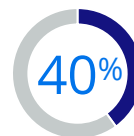

- Cardiothoracic
- GI/GU
- Neurology
- Musculoskeletal
- Women’s health

PowerShare medical image sharing results

Reduction in CD usage¹

Decrease in duplicate imaging and unnecessary repeat scans²

Are you one of the 15,000+ healthcare facilities connected to PowerShare?

Great news! PIN infrastructure is already in place. PIN requires minimal additional setup when security review, contracting, workflow configuration, and integration is already complete.

Endnotes

- 1 Based on internal analysis of University of Colorado Health’s use and adoption of PowerShare; 02-2020.
- 2 Based on multi-client use of PowerShare Image Sharing, including Coordinated Care of Oklahoma; 05-2019
